

Black History Month – Rosa Parkes

The children have been learning about Rosa Parks and how she made a change for black people in America. The children listened to the story and they discussed the reasons why Rosa would want to make a change. Through lovely learning, the children used the small world characters to retell the story of Rosa Parks.

Rylee: “Rosa Parkes changed the rules on where people sat on the bus.”

Joshua: “We listened to the story about a lady who helped people sit on the bus.”

Happy Minds

The children have been introduced to Bertie and Betty and they have learnt that once they learn new things then their brain will begin to grow a little bit bigger.

They have talked about different emotions and how it is ok to be have different feelings.

Myles: “I have been learning lots of things and now my brain is getting bigger.”

Thomas: “Bertie and Betty help us to know about our brain.”

Pumpkin Picking

To start the Autumn celebrations, the children went on a trip to Partridge Lakes where they all picked a pumpkin. Before they went on the trip the children looked at different maps of the local area and of Partridge Lakes and they discussed the symbols on the map. Once they returned to school they created their own maps by drawing them on large paper and constructing a 3d map in the block area.

Kit: “We made a map in the construction area of how to get to the pumpkin patch.”

Amelia: “I went pumpkin picking and I saw lots of pumpkins in a field and there was a lake too.”
